The Food & Drug Administration
Dr. Jane Henney
Commissioner of FDA
5600 Fishers Lane
Rockville, MD 20857

Dear Dr. Henney:

I don't think it is right for the dairy industry to monopolize the term "milk". There are many other kinds of milk. I think cow's milk should be labeled as "cow's milk".

Please allow the non-dairy beverages to include milk in their labels and please require cow's milk to include the word "cow's" on theirs.

Thank you for your time.

Sincerely,

Mary Ann Tober.
